Response to Amendment

This Action is responsive to Applicant's response filed on May 13, 2004. The IDS submitted on 3/5/2004 is noted. Claims 1-25 and 27-29 remain pending, claim 26 has been cancelled and newly added claim 30 is presented for an examination, thus claims 1-25 and 27-30 are pending.

Allowable Subject Matter

Claims 1-25 and 27-30 are allowable over the prior art of record, renumbered as claims 1-29 respectively.

The following is an Examiner's statement of reasons for allowance:

Claims 1, 16, 17 and 18 are allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a method or a system of executing a set of source code instructions to enable memory associated with objects not referenced external to the executed set of source code instructions to be reclaimed comprising a data structure wherein an address of the set source code instructions creates local objects and non-local objects on a local and non-local heap of memory such that non-local objects are stored in memory separately from local objects, as claimed in addition to the other claim provisions.

Claims 2-15, 19-25 and 27-30 depend from claim 1 and are therefore allowable.

The prior art or record and not relied upon is considered pertinent to applicant's disclosure. The following patent is cited to illustrate the state of art with respect to garbage collecting and heaps:

U.S. Patent No. 6,757,890 of Wallman.
